## KERENSKY DEPOSED; SLAVS AGAIN IN REVOLT

### COL. HOUSE HEADS U. S. ENVOYS TO PARLEY OF ALLIES

Land Safely In London After An Uneventful Trip Through Sub Zone

### PEACE TERMS WILL NOT BE DISCUSSED IS CLAIM

Oscar Colby Head of Shipping Board to Study England's Methods

(Associated Press Telegram) London, Nov. 8.—The special American commission to the allied conference arrived in London last night. It is headed by Colonel R. M. House as special commissioner with the honorary rank of special ambassador.

"We had a pleasant and uneventful voyage," Colonel House told the Associated Press. "The weather was fair. There were no submarines. It was the best vacation I have had in two years."

The commissioners were met by Ambassador Page, Vice Admiral Sims, commander of the American destroyer squadron and Foreign Secretary Balfour. There are twenty-seven persons in the party, including Admiral Benson, General Bliss, Vance McCormick, chairman of the war trade board; Oscar T. Crosby, assistant secretary of the treasury; Bainbridge Colby of the United States shipping board; Dr. A. E. Taylor representing the food control and Paul Cravath.

Mrs. House and the wives of several other commissioners are in the party. Colonel and Mrs. House were driven to the residence of the Duke of Roxburghe, where they will stay while in London. The members of the mission arose late this morning, much refreshed after their first comfortable night's sleep in many days.

The first thing they did was to go into conference with Colonel House presiding. The meeting lasted an hour. Colonel House outlined a tentative program for the next few days, calling for a series of conferences with British officials. Each member of the mission will discuss his particular work with British officials in charge of the similar activities in England.

Admiral Benson had an early call to make on Admiral Jellicoe, first sea lord, and General Bliss expected to visit the war office during the day.

"I am impatient to see with my own eyes the great efforts England is making toward solving the shipping problem," said Mr. Colby, "and with this end in view will pay an early visit to the great ship yards. America is now fully awake to the importance of tonnage in this war and is carrying out a program of unparalleled magnitude. Ship building now takes priority over all other work in our country."

Some of the members of the mission are planning an early visit to France.

### GERMANY CALLS UP FINAL RESERVES FOR LAST EFFORT

(Associated Press Telegram) London, Nov. 8.—Germany called up her last reserves within the last few days, according to the Central News correspondent at Zurich, telegraphing under Wednesday's date. All men who previously had been rejected were ordered to present themselves for re-examination and within 24 hours all not utterly incapacitated were on their way to the training centers.

This action, says the correspondent, is attributed to the intention of the central powers to make a final effort on the western front before America's help becomes effective.

### SEIZE GERMAN STEAMER OFFICES IN NEW YORK

(Associated Press Telegram) New York, Nov. 8.—The offices of the Hamburg-American steamship line here were seized today by United States Marshal McCarthy on orders received from Washington from A. Mitchell Palmer, custodian of enemy property. Julius P. Meyer, vice director of the company, and about 76 employees were ordered to leave forthwith. It was said the office will be used by the port board and war board.

### VON HERTLING OR DICTATORSHIP IS KAISER'S THREAT

Radicals Demanding Vice Chancellor Warned to Drop Agitation

### SPLIT IN REICHSTAG IS IMPENDING IS CLAIM

Socialists Do Not Believe Scheidemann's Assertion of So-Called Democracy

(Associated Press Telegram) Copenhagen, Nov. 8.—The threat that a military dictatorship is inevitable unless insistence upon a radical vice chancellor is dropped and the government of Count von Hertling as it now stands is accepted, is held out over the progressive democratic elements in Germany.

Count von Hertling, through a semi-official note in the Nord Deutsche Allgemeine Zeitung, announces that no promise was given were made to give the radicals the two posts they desire. Representatives of the reichstag majority have issued an equally authoritative announcement that they adhere to their old position.

The situation is drifting rapidly toward the goal desired by the reactionaries—that is, a split in the present minority in the reichstag and the formation of a new coalition embracing the conservatives and the national liberals. Such a block, which would have a bare majority in the reichstag, is by no means impossible, notwithstanding the apparent unity proclaimed by the majority caucus. The Catholic center is by no means adverse to following the chancellor along a road marked with party advantages. The national liberals, intimate strongly in their formal announcement of Herr Friedberg's withdrawal of his acceptance of the vice presidency of the Prussian cabinet, their dissatisfaction with the attitude of the radicals and the socialists.

The socialists apparently have abandoned the dictum expressed by Philip Scheidemann on Sunday that the new Von Hertling government, which differs from that of Dr. Michaelis only in the person of its chief, is only in the person of its chief.

### CIVIL WAR MENACE TO RUSSIANS SAY CAPITAL EXPERTS

(Associated Press Telegram) Washington, Nov. 8.—Kerensky's fall and the collapse of his government in Petrograd into the hands of the Maximalists who propose an armistice to the end of an immediate and just peace, is regarded here as threatening Russia with a civil war which all her friends hoped to see avoided.

The state department, entirely without official advice of its own was silent, wishing to avoid making any statements until the situation could be accurately assessed on the basis of intimate reports from Ambassador Francis at Petrograd.

The Russian embassy too, preferred not to make a statement until later and until after there had been opportunity for communication with Ambassador Bakmeteff, who was traveling in the south.

The embassies of the entente allies, realizing that the development means first of all probably a rearrangement of their war plans, were shocked but not disheartened at what is considered a triumph of insidious German propaganda.

The general opinion here among those in position to be best informed of Russian affairs is that Kerensky and his followers probably will at once set up a new government at Moscow leaving Petrograd to the Maximalists and those troops who adhere to them. An armed clash is counted among the first probabilities, but it is said here that the greater part of the army is expected to remain loyal to the Kerensky government.

Coming close on the Italian reverses, the Russian debacle brings the allies, including the United States, face to face with action to rearrange their fighting power to deal the heaviest possible blows on the battle fronts while Russia works out her part and destiny in the great struggle for world freedom and Italy holds back to invaders pouring through the Alps.

### "PROGRESS" IS THE WORD AT THE GREAT LAKES TRAINING STATION

Practice at the rifle range (above), visiting French army officers with American officers and wives (below left), and teaching the land-lubber rookie how to hold his course at sea through the use of a "deck" so arranged as to give the sensation of pitching and tossing on the waves.

Teaching the arts of the sea on dry land appears to be a difficult undertaking, but it is proceeding rapidly and with excellent results at the Great Lakes naval training camp in Illinois. More than 1,000 blue-jackets and commissioned officers are becoming expert marksmen as a result of the formation of the navy rifle club, a recent addition to the training station, holding weekly drills and competitions at the rifle range. A large deck or platform, with a regulation steering wheel, is used to drill the boys in holding a course on the sea and it is so constructed as to give them the pitching and tossing of rough waves. The camp was recently visited by a group of French army officers who reviewed the jacks at their training.

### NAVAL GUNNERS SINK SUBMARINE; STEAMER SUNK; 4 DEAD, 14 MISSING

(Associated Press Telegram) An Atlantic Port, Nov. 8.—Information that an American shell fired by an American naval gunner sank a Teutonic submarine in the Mediterranean is contained in a report made to the navy department by the officers of an American freight steamship which arrived here recently. The vessel was returning from an Italian port in ballast after taking a cargo of war munitions from America to Italy. A report of her narrow escape from a torpedo was recently made public but the fate of her attacker was not mentioned.

The periscope of a submarine appeared above the water, the U-boat captain apparently being unaware that the torpedo had gone under the freighter because with no cargo she was riding high in the water. Three American shells fired from her stern bow gun and two from her stern gun missed the submarine, but the sixth shot from the stern gun struck it at the base of the periscope, according to the officer's report. There was an explosion which shattered the submarine's shell and she sank with all on board.

### MAJORITY ON SALOON VOTE SWINGS FROM ONE SIDE TO THE OTHER; BOTH SIDES CLAIMING VICTORY

(Associated Press Telegram) Cincinnati, Nov. 8.—On the official returns received between 1 o'clock and 2 o'clock the drys had much the better of any advantages that were shown and increased their lead to 1,785. The major part of this gain came from Richland county. Early but complete returns today gave Richland county as voting for prohibition, 5,184; against prohibition, 4,851. The official report as received from the secretary of state's office gave the vote as 5,484 for prohibition and 4,851 against, a net gain of 900 for the drys. At 2 o'clock the vote stood: For prohibition, 521,114; against prohibition, 519,621.

(Associated Press Telegram) Cincinnati, Nov. 8.—The prohibition election in Ohio today developed into what probably is the most remarkable contest that the people of this state have ever taken part in. Since the polls closed at 5:30 o'clock, Tuesday evening, each side has alternated in the lead three times. During the early part of Tuesday night the drys assumed a small lead. Before morning the wets had wiped this out and established what looked to be a fair-sized majority. All of Wednesday morning the returns kept nibbling into this until by 1 o'clock yesterday afternoon they had completely wiped it out. Shortly afterward, however, a mistake of 10,000 votes in the Hamilton county count, which favored

the wets was found, and the anti-prohibition forces were again in front. This likewise seemed to be fairly safe, but the returns that came in last night reduced it to practically nothing, and when a few of the update counties reported complete victory before 1 o'clock this morning, the count showed the drys once more triumphantly leading. They ran this lead up to almost 3,000 votes and finally stood still with the unofficial but complete count showing them the victors by 2,952. However, then the official counts from the various counties began to come in and while a number of counties showed slight gains when the unofficial was translated by the official, yet the wets were far the more fortunate in this respect and at 1:30 p. m. today the drys were leading by only 710 votes. This, however, was more than offset by another error, located by the canvassing board in Hamilton county, who reported a gain of 1100 votes for the wets when the count had reached the seventeenth ward. The count at 1 p. m., which does not include the 1100 mistake in Hamilton county, and will not include it until the final official count is announced in this county, stood: For prohibition, 520,429; against, 519,719.

(Associated Press Telegram) Cincinnati, Nov. 8.—The office of the board of elections here today was packed with representatives from the various wet and dry forces when the board organized as a board of canvassers to begin the official count on the prohibition amendment. The discovery of a mistake by which 10,000 votes were tabulated for the dry side when they should have been counted for the wets, led many to believe that the vote in Hamilton county would be the deciding factor in determining whether the state would remain wet or go over to the drys. This appeared to be the case when the board made the announcement that an error, which added 1100 to the wet side, had been found before the canvassers had reached the seventeenth ward.

(Associated Press Telegram) London, Nov. 8.—There are indications of a general retirement northward by the Turkish forces in Palestine, the war office announces.

### NEW GOVERNMENT WILL OFFER IMMEDIATE PEACE; OFFICIALS ARE ARRESTED

Entire Petrograd Garrison Joins New Movement Without Bloodshed—Petrograd Under Control of the Maximalists—Parliament Dissolved

### NEW LEADERS WILL IMMEDIATELY CALL CONSTITUTIONAL ASSEMBLY

Nikolai Lenine Cheered As He Proposes to Offer Armistice and Immediate Peace, Give Land to Peasants and Settle Economic Crisis in Russia—Telephone, Telegraph and Post Service Seized By Revolters—Crisis in New Slav Republic Reaches Chaotic Stage—Russian Ambassador to Washington Says Nation Should Not Be Judged By Petrograd Events

(Associated Press Telegram) London, Nov. 8.—Premier Kerensky of Russia has been deposed. The Maximalists have obtained control of Petrograd and issued a proclamation saying the new government will propose immediate peace, the semi-official Russian news agency announces.

The Maximalists were assisted by the Petrograd garrison, which made possible a coup d'etat without bloodshed. Leon Trotsky, president of the central executive committee of the Petrograd council of soldiers' and workmen's delegates, issued a declaration to the effect that the provisional government was no longer in existence and that some of its members had been arrested. The preliminary parliament has been dissolved.

The Russian news agency which, as reported last night, was seized by the Maximalists, sends the following dispatch from Petrograd, dated 9:50 o'clock last evening:

"The day brought certain changes in the general situation in the capital. The Maximalist movement gained fresh and fairly appreciable progress, but no disorders have taken place.

"Towards 5:00 o'clock in the afternoon the military revolutionary committee of the soldiers' and workmen's delegates issued a proclamation stating that Petrograd was in its hands, thanks to the assistance of the garrison which enabled the coup d'etat through without bloodshed."

The proclamation declares that the new government will propose an immediate and just peace, will hand the land to the peasants, and will summon the constituent assembly. "Delegates from the three Cossack regiments quartered here, declared they would not obey the provisional government and would not march against the soldiers and workmen's delegates, but that they were prepared to maintain public order."

"The Petrograd council of soldiers and workmen's delegates held a meeting this afternoon at which M. Trotsky made his declaration that the government no longer existed; that some of the ministers had been arrested and that the preliminary parliament had been dissolved."

"Nikolai Lenine, amid prolonged cheers outlined three problems now before the Russian democracy: first, immediate conclusion of the war, for which purpose the new government must propose an armistice to the belligerents; second, the handing over of the land to the peasants; third, settlement of the economic crisis."

"At the close of the sitting a declaration was read from the committee of the democratic Minimalist party of the soldiers and workmen's delegates stating that the party disapproved of the coup d'etat and withdrew from the council of soldiers and workmen's delegates."

A wireless dispatch from Petrograd says that the council of soldiers and workmen's delegates has announced that the split in the council has been healed and that a call has been sent out for a delegate from each 25,000 of the population to express the will of the Russian army."

An Exchange Telegraph dispatch from Petrograd says a string detachment of troops of the soldiers and workmen's delegates occupied the Baltic railway station and that the government commanded all motor cars, confining the troops to the barracks.

A proclamation sent out through the wireless stations of the Russian government today, and picked up here, states that the garrison and proletariat of Petrograd have deposed the Kerensky government.

It has been indicated for some time past that an attempt was to be made by the Maximalists in Petrograd to seize control of the capital. November 2 was the date originally set for an extremist demonstration which was expected by its promoters to result in the taking over of power by this element. A postponement to an unannounced date was afterward decided upon, however.

The Maximalists, or Bolshevik element, comprises the most extreme class of the Russian revolutionary socialists. It first sprang into prominence in the early days of the revolution under the leadership of Nikolai Lenine, the radical agitator, who later was put under the ban of the provisional government because of his ultra-radical preachments and his suspected pro-German leanings. He is known to have been in Petrograd for some time past.

### ZANESVILLE YOUTH FREED OF CHARGE OF POISON PLOT

(Associated Press Telegram) New York, Nov. 8.—Samuel O. Livingston of Zanesville, O., a private attached to the United States army aviation camp at Princeton, N. J., was acquitted of the charge of having a deadly poison in his possession with intent to injure his comrades, according to the findings of the military tribunal which heard his case at Governor's Island four weeks ago.

He was found to have had the poison in his possession unknown to his commanding officer. For this he was fined but otherwise has been completely exonerated. It was announced by Lieut. John G. Livingston, assistant judge advocate of the military court martial, Livingston's standing as a soldier was in no way affected by the trial. It was stated, and he has been ordered back to Princeton to continue his aviation studies.

Lieut. Livingston said that a most pathetic letter had been received from Livingston's mother in Zanesville stating that the family, because of the publicity, had been virtually ostracized. The army authorities hoped that the fact of his exoneration would become widely known.

Totals \$4,617,532,300 \$3,000,000,000 \$1,617,532,300

"The success of the second Liberty loan," Secretary McAdoo, said last night, "like that of the first, is a distinct triumph for the people of the United States."

"These financial operations, greater in magnitude than ever attempted by any other Government in the world, were not too great for the American people."

## NEW GOVERNMENT WILL OFFER IMMEDIATE PEACE; OFFICIALS ARE ARRESTED

(Continued from Page 1.) However, but a government order for his arrest failed to result in his apprehension. Meanwhile the Maximalists were under the leadership of his chief lieutenant, Leon Trotsky, whose home was in the United States when the revolution broke out, but who sailed for Russia shortly afterwards. He was one of the leaders in the revolution of 1905.

The strength of the Maximalists has lain in the support which they obtained from the military, chiefly in the Petrograd garrison, among which they have been able to work with little interference from their government. They had failed, however, to impress their policies upon Russia as a whole, as has been shown by the manner in which they were out-voted in the all-Russian congress, and the minority part they played in the organization of the preliminary parliament, in which they refused to participate after they were shown to be outnumbered.

Nevertheless, their influence upon Russia's policy, both internal and external, has been marked because of their predominance in Petrograd, the seat of government. It was this sinister influence that in part prompted the recent proposal by the Kerensky government to remove the capital to Moscow where it was believed that the government would be free to represent adequately the will of the whole Russian people.

The Bolsheviks have worked chiefly through the Petrograd council of workmen's and soldiers delegates, which was theirs absolutely. Uncertain of their ground at first they refused months ago to assume responsibility, although claiming the power to dictate the government's policy. Lately, however, they have shown increasing boldness. The fear of a counter-revolutionary movement, which held them in check for a long time has been virtually dissipated by the failure of the Korniloff revolt, and they apparently have been preparing for a considerable period for a radical move to assert their authority. This was evidenced recently when they appointed a military committee to take charge of the defense of Petrograd and ordered the garrison to accept only its orders and ignore the government's authority.

Premier Kerensky seemingly recognized that the growing menace to his government was one he could not cope with by drastic measures, surrounded as he was by military power in the hands of his opponents. It was only within the past day or two that he refused to declare the Bolshevik virtual outlaws at the request of the Cossacks, although asserting the government was taking all measures to deal with the threatened uprising. Kerensky's task at the head of the provisional government since his assumption of the premiership on July 20 last has been a formidable one. Hailed as the savior of Russia in her hour of need, he labored with ability and patience to keep the diverse elements comprising the revolutionary democracy together.

## FIRST AMERICAN ARTILLERYMEN GET REST FROM LABORS

With the American Army in France, Wednesday, Nov. 7.—The first American artillery unit to establish contact with the Germans came back to its billets today. The men were tired and muddy, but still as enthusiastic a lot of soldiers as ever came out of gun pits. The artillery had a longer stay at the front than the infantry and they came back, men and horses, wet to the bone, covered with mud and ready to sleep.

## ELECTION BOARD WORKS ON OFFICIAL FIGURES

The local election board is at work this afternoon on the official vote of the county and city. It is hardly possible that they will complete the entire vote today, but may be able to give the official figures on the constitutional amendment. It is not believed that the totals announced yesterday will be affected to any extent, yet a single vote at this time may mean much to either side as the result of the prohibition vote hinges on the official count. The unofficial count gave a majority of 779 for prohibition.

## THIS BOY WOULD MAKE GOOD TRENCH RAIDER

A fight took place in Beach street last evening between a number of foreigners. Police Chief James Sheridan and a force of patrolmen gathered up five of the belligerents and haled them into police court where they were assessed the sum of \$8. Upon their release, and after taking a few steps into the prison yard, one of the men walked up to another and planted a left to the jaw, following with an upper cut, the fellow taking the court. The battle was witnessed by Chief Sheridan and Turnkey Bob Francis and they rushed out and secured the warrior and locked him up for safe keeping.

## ANOTHER ELECTION CERTAIN, NO MATTER WHICH SIDE WINS

(Associated Press Telegram) Columbus, Nov. 8.—No matter whether the wets or the dries finally are victorious in the state-wide prohibition election, the indications here today were that Ohio will have to go through another wet and dry campaign next year.

Reliable reports stated that if the wets lose they will start a campaign for another fight next year to keep the state wet. It was considered probable that the dries likewise would call another election next fall if the wets win.

If the prohibition amendment carries, it will go into effect February 1, 1919. If it carries, politicians to-day pointed out that the wets could call another election next year in time to keep Ohio in the wet column if the wets should be successful then.

## YANKEE FARMERS BEAT CORN RECORD BY 66 MILLION BU.

(Associated Press Telegram) Washington, Nov. 8.—A corn crop larger by more than 66,000,000 bushels than ever grown in the history of American agriculture, is the production of the farmers of the United States this year. The department of agriculture today in its preliminary estimate of the corn placed the quantity at 3,191,083,000 bushels.

Conditions since the October forecast caused a reduction of about 19,706,000 bushels in the indicated output. Corn, 3,191,083,000; buckwheat, 15,512,000; potatoes, 439,686,000; sweet potatoes, 84,727,000.

"Well," reflectively answered the native, "I think we have, but we can't prove it on him."—Brooklyn Citizen.

## COL. HOUSE HEADS U. S. ENVOYS TO PARLEY OF ALLIES

(Continued from Page 1.)

Arrival of the mission, headed by Colonel Edward M. House, personal friend and confidant of President Wilson, was announced by Secretary Lansing. No intimation of the date and place of the conference yet has been disclosed by the state department, but it is thought here that the sessions are about to open.

Secretary Lansing made it clear that peace terms and hostile questions will not be subjects of discussion at the meeting of representatives of the allied powers. Although necessarily subdivided into many phases, the present war, with dominant emphasis laid on means for a speedy, successful culmination, will be the sole topic of discussion.

With the personnel of the American mission representative of the government's chief agencies for conducting the war, it is expected the President's special envoys will be able to lay immediately before the conference, a complete and explicit statement of America's resources in man power, industrial efficiency and economic wealth.

The personnel of the mission includes: Colonel Edward M. House of New York; Admiral W. S. Benson, chief of naval operations; General Tasker H. Bliss, chief of staff of the United States Army; Oscar T. Crosby, assistant secretary of the treasury; Vance C. McCormick, chairman of the war trade board; Bainbridge Colby, United States shipping board; Dr. Alonzo E. Taylor, representing the food controller; Thomas Nelson Perkins, representing the priority board; Gordon Auchincloss, as secretary.

Even the fact that the Americans to participate in the congress had been named had been a carefully guarded secret until they were through the submarine zone and safe on British soil. The part the United States is to play in framing the great allied program is emphasized by the fact that the mission, headed by President Wilson's closest, personal friend and adviser, includes the highest officers of the army and navy.

Tonight, after you brush your teeth,

Is all probability an accumulation of

Loss of teeth is usually caused by

## MID ROAD OF GUNS FRANCE HONORS AMERICAN DEAD

Associated Press Telegram  
With the American Army in  
France, Wednesday, Nov. 7.—The  
first three American soldiers killed  
in the trenches in France are sleep-  
ing in French soil, honored by the  
American army and the people and  
army of France. Their final inter-  
ment took place yesterday.

With a guard of French infantry-  
men in their picturesque uniforms of  
red and horizon blue standing on one  
side and a detachment of American  
soldiers on the other, the flag wrap-  
ped caskets were lowered into the  
grave as a bugler blew "taps" and  
the batteries at the front fired  
minute guns. As the minute guns  
went off the French officer com-  
manding the division in this section  
paid tribute to the fallen Americans.

The words, which were punctuated  
by the roar of the guns, and the  
whistle of shells, touched both the  
French and Americans. In conclu-  
sion the French officer said:  
"In the name of the — division,  
in the name of the French army  
and in the name of France I bid  
farewell to Private Enright, Private  
Gresham and Private Hay of the  
American army."

Of their own free will they had  
left a prosperous and happy country  
to come over here where war was  
continuing in Europe; they knew  
that the forces fighting for  
honor, love of justice and civiliza-  
tion were still checked by the long  
forces serving the powers of brutal  
domination, oppression and barbari-  
ty. They knew that efforts were  
still necessary. They wished to give  
up their generous hearts and they  
have not forgotten old historical  
memories, while others forget more  
recent ones.

"They ignored nothing of the cir-  
cumstances and nothing had been  
concealed from them—neither the  
length and hardships of war, nor the  
violence of battle, nor the dreadfulness  
of new weapons, nor the peril-  
ousness of the foe. Nothing stopped  
them. They accepted the hard and  
strenuous life; they crossed the  
ocean at great peril; they took their  
places on the front by our side and  
they have fallen facing the foe in a  
hard and desperate hand to hand  
fight. Honor to them. Their fam-  
ilies, friends and fellow citizens will  
be proud when they learn of their  
deaths."

"Men! These graves, the first to  
be dug in our national soil and only  
a short distance from the enemy, are  
as a mark of the mighty land we  
and our allies firmly cling to in the  
common task, confirming the will of  
the people and the army of the  
United States to fight with us to a  
finish, ready to sacrifice as long as  
is necessary until final victory for  
the most noble of causes, that of the  
liberty of nations, the weak as well  
as the mighty. Thus the deaths of  
these humble soldiers appear to us  
with extraordinary grandeur."

"We will therefore ask that the  
mortal remains of these young men  
be left here; left with us for ever.  
We inscribe on the tomb 'Here Lie  
the first Soldiers of the Republic of  
the United States to Fall on the soil  
of France for Liberty and Justice.'  
The passerby will stop and uncover  
his head. Travelers and men of  
heart will go out of their way to  
come here to pay their respective  
tributes."

Private Enright! Private Gresh-  
am! Private Hay! In the name of  
France I thank you. God receive  
your souls. Farewell!"

## LICKING COUNTY SOLDIERS

Attention is called to the correspondence relating to the Licking county battery fund published elsewhere in this newspaper. The purpose of raising the money is to provide athletic equipment and perhaps other articles for the pleasure of the Newark and Licking county boys in Camp Sherman. Already plans are under way to provide the Licking county boys at Camp Sheridan, Alabama, with a splendid Christmas dinner.

We can't do too much for the young men who are going to the front to fight our battle. They deserve our consideration and merit our attention. They are fully appreciative of the kindness of friends back home. Hundreds of them have written their expression of sincere thanks for the service medals sent by the people through The Advocate, and every day we receive letters of appreciation for the newspapers which are sent to them by order of home-folks. The boys like to read the home newspaper and many people are taking advantage of the low mail rate to have The Advocate sent to friends in camp every day.

It should be remembered that sixty-six Newark boys are now with the colors in France. A little Christmas present from home will make them happy. Packages for France, intended as Christmas gifts, should be sent within a week.

The battery fund just recently started already amounts to \$133.40, the greater part of which was subscribed in Granville. Other sections of the county are to be heard from, and as yet very few in Newark have taken an interest in the matter, but the fund will, no doubt, grow to the proportion it deserves.

## NEW YORK VERSUS OHIO.

Harriet Taylor Upton, president of the Ohio Women Suffrage Association, says:

"Though the majority against permitting Ohio women to vote for presidential electors is smaller than was the majority against full suffrage in 1914, and in all directions we show increased strength, it is a little humiliating to feel that the men of New York hold their women in so much higher esteem than do the men of Ohio."

## RED CROSS RELIEF.

The American Red Cross war council has appropriated one and a quarter million dollars for emergency relief work in Roumania. W. H. Anderson, chairman of the Red Cross commission to Roumania, has cabled Henry P. Davison, chairman of the Red Cross war council, of a shortage of food, and especially food fats. The military hospitals also are in need of bedding, and surgical and medical supplies in large quantities. No supplies of this kind are available there.

Approximately one million dollars of the appropriation will be used for

## Daily History Class—Nov. 8.

- 1674—John Milton, famous British poet, died; born 1608.
- 1793—Mme. Roland guillotined at Paris.
- 1794—Warsaw fell, and the final extinction of Poland followed.
- 1864—Abraham Lincoln re-elected (sixteenth) president.
- 1862—Grover Cleveland re-elected twenty-fourth president.
- 1915—Tensions and disputes had complete control of the Oriental railway.
- 1916—Germans launched heavy attack on the British front north of Amiens.

the purchase of two thousand tons of foodstuffs. Another large item in the appropriation will supply forty thousand pairs of shoes. Medical supplies will be sent in large quantities.

The need of relief in Roumania is particularly pressing because of the overcrowded condition of certain areas, caused by the war operations. In a territory normally occupied by one million persons there is now a population of three million, according to advices cabled by Red Cross workers in the field. Measures to relieve the needs developed by this situation will be put into effect as speedily as possible.

## WAR OF DISCIPLINE.

The recruits in the training camps will often be fretting because they are asked to obey this and that rule for which they fail to see a necessity. They should reflect that their own safety and everyone's depends on instant obedience. It must be possible to hold a group of men to strict compliance with orders or the offensive will fail.

The Canadian troops at the start of the war lost very heavily. They were almost too brave. They were so anxious to go ahead that they could not be held to strict discipline, consequently they suffered needless casualties.

In this war there is a minute subdivision of function. Every man has his task which must be performed in a certain way. If once the prearranged plan is broken up by too much individual initiative, the attack is weakened. The soldier for the good of all must learn to fit in with the general plan and do immediately just what he is told.

Having always opposed appropriations for munitions of war, many people are now kicking because it costs so much to provide them all in a hurry.

If those suspected spies in the army and navy department affirm their innocence, offer them sauerkraut and see if they can refuse it.

Shortage of pennies reported in Newark. Probably the contribution boxes will feel it before the penny-in-the-slot machines.

Up to date the food profiteers haven't decided whether to pay a fine or go to jail.

## GERMANY'S FUTURE.

(Indianapolis News.)

Columbia university has some professors who refuse to confuse moral values, among them Franklin H. Giddings, head of the department of sociology. He was recently quoted by the London Observer as follows:

"There is no reasonable doubt that Germany has lost the confidence of the civilized world. It is completely gone. I do not believe that the world will forgive Germany in a hundred years."

In my opinion there will be no forgiveness of Germany by the civilized world before the many days of our grandchildren, and to obtain it then she has to show works meet for repentance."

The boycott from which Germany will suffer will not be primarily industrial and commercial, but intellectual and moral. With the most liberal trade regulations imaginable, there are millions of people in the world who, after the war, will have nothing to do with the Germans. Their isolation will not be due to any commercial pact, but to the instinctive shrinking from a nation guilty of monstrous crimes against God and man. That is a feeling that statesmen can neither create nor eliminate. Men will be unable to associate in any way with Germany as it now is, or to have any dealings with it, without feeling a sense of personal degradation and contamination. Shakespeare's words have a very direct application:

"Good name in man and woman, dear my lord, is the immediate jewel of their souls: Who steals my purse steals trash; 'tis something, nothing; 'Twas mine, 'tis his, and has been slave to thousands; But he that filches from me my good name, Robs me of that which not enriches him And makes me poor indeed."

By herself has Germany's good name been filched from her. Nothing in this astounding war has been more amazing than her apparent belief that the world would see nothing criminal in her conduct. Either she was disregarding of the opinion of mankind—insolently and contemptuously so—or else she thought that mankind would not be shocked by her crimes. A nation whose soldiers, as a matter of state policy, ravish women and cruelly imprison, wound and maim, can have no place in the great commonwealth of nations. Professor Giddings is right. The world will be slow to forgive, for it has been made the victim of unspeakable wrongs.

A good name is as great an asset to a nation as to an individual. It may be forfeited, not only by criminals, but by those who associate with them. The American people will take no chances of this sort. They are proud of the good name of their country, and will guard it from pollution. The German government, on the other hand, apparently still believes that it is regarded by Americans as a government with which peace negotiations can be conducted and future relations established. We do not think of it as a government at all, but as

Whatever be which thinks, which understands, which will, which acts, it is something celestial and divine; and, upon that account, must necessarily be eternal.—Cicero.

At Second Sight.

It is likely that most married men will realize  
They do not believe in it at second.

Yes, Indeed.  
Aunt Caline says:—Vera Lloyd has got a new car an' she took it to the city. Lotta out in it fer what she called a spin. Well, that there car would go fer about a foot an' then stop an' it took 'em about a hour to go down our street. Hadda she got kinda disgusted an' she says, "I thought you said this here car was a forty-horse power," she says, "Yes," says Vera, "that's what the man told me," she says, "Well, it seems mighty weak to me," says Hadda. "Well," says Vera, "you no some horses air a grate deal stronger than others," she says.

Did You Know  
That the earliest columns consisted of the trunks of the trees? It is said that even at the present day the peasants of Asia Minor construct their wood huts so as almost exactly to resemble the form and disposition of parts which are found in the great architectural monuments of classical antiquity. The Asiragat is a little round molding to represent a band of iron passed around the top or bottom of a column to prevent its splitting. In all

There could be no greater insult to the world than the German belief that it not only would not object to, but would probably applaud the crimes of which they have been guilty. There must be judgment.

## UN-AMERICAN AND PRO-KAISER.

(Dayton News.)

To be unpatriotic is to be disloyal. There is no halfway ground. Those who are not for America are against America. When the so-called Socialist emergency council met to condemn this country for the steps taken in the fight to make the world free for democracy, it ceased to be an exponent of true socialism. This act drove from Socialist ranks its thinking leaders, who emphasized in their withdrawal the fact that no man at this time could be anti-American without being pro-Kaiser.

To the observing, the actions of the world-known leaders of the Socialists of the United States spoke volumes. People who pay little attention are now having brought to their notice facts which they had never known. The activities of Socialist candidates in fostering treason and preaching sedition have been supplemented by other acts and other statements of those whose sympathy is with the cause we are opposing. Information is at hand of more or less secret meetings where Socialist candidates are seekers for preferment, in which foreign sympathizers, societies and brotherhoods supported and encouraged by alien funds, have adopted resolutions to vote solidly this fall for all the Socialist candidates.

It matters not whether the leading contender be Democrat or Republican if he be loyal. The Socialist candidate must be defeated, for the Socialist candidate cannot give encouragement and shelter to the enemies of this country and at the same time himself be true.

## TOTAL ECLIPSE NEXT YEAR.

(Ohio State Journal.)

We are going to have a total eclipse of the sun in this country next year but it will not come until June 8, and then we shall have a partial eclipse. The shadow will be a narrow one, starting in the state of Washington, thence moving across Oregon, Wyoming, Idaho, Colorado and Kansas; then continuing its course to Florida, where it will arrive about sunset. In Washington the totality will last two minutes and two seconds, which is a long time for a total eclipse, but the time will shorten until the shadow gets to Florida, where the totality will last only half that time. Great preparations are being made by the astronomers to watch this eclipse, and they expect, if it is a fair day, to add much to their knowledge of the sun. But the great importance of the event to the ordinary man is about this eclipse. It is because astronomy is the exactest as well as the most inspiring of all the sciences.

columns the shaft tapers gradually from the base toward the top, slightly swelling at the middle and ornamented with flutes. To the Doric, Ionic and Corinthian, the three Greek orders, the Romans added two others: the Tuscan, which was a variation of the Doric, and the Composite, which was a combination of the Ionic and Corinthian.

Autocracy Must Go.  
(Mansfield News.)

Every people on the face of this globe have the inalienable right to choose the form of government they prefer. For Germany, Great Britain, France, the United States, or any country in the world to insist that it must rule the people of all countries, and that it must have supreme power, means continuous warfare and that the only tenable doctrine is that might makes right. The state must exist for the people and not the people for the state. Germany makes the fatal blunder of holding that the individual is nothing and that the state is all.

## Spirit of the Press

Secret service operatives are holding two men on suspicion that they set fire to the Baltimore piers and destroyed large quantities of war munitions destined for France. One of the suspects, first professing to be a Russian Pole, afterward admitted that he is a native of Germany, but a naturalized citizen of this country. If the guilt of either should become certain, an inviting opportunity will be presented to do what probably should have been done long ago; that is, visit the capital punishment which law and universal custom, sanction in the case of such crimes as this. The government has been more lenient in its dealings with spies and traitors than is compatible with its duty to the brave men whom they are sending to the trenches. The frequency of these crimes is to be ascribed largely to this policy of lenience.—Galveston News.

Too many precautions to guard against the burning of Buffalo stockyards and great elevators cannot be taken. Buffalo at the lower end of the Great Lakes is the hopper through which most of the grain to feed our armies and those of our allies must pass. The burning of a Buffalo elevator would cause plenty of joy in Wilhelmstrasse. That may sound like an exaggeration, but there isn't any doubt that its ago classified secret service has long, as well as the stockyards, according to capacity. Let's take the ounce of prevention rather than make a wry face at the pound of cure.—Buffalo Commercial.

Canneries at the harbor may be forced to close their doors owing to the high price of fish and the price-setting on food. With a minimum government fixed sale price for the fish on the one hand, and with the need of paying a higher price for fish on the other hand, the cannery find themselves between the government and the deep sea. Yet, with the advance in the cost of living, the fishermen cannot afford to dispose of their catches at former prices. It seems that both fishers and cannery are caught in an economic net from which it may be as hard for them to extricate themselves as it is for the poor fish to extricate themselves from the net or the hook.—Los Angeles Times.

## LICKING COUNTY SOLDIER BOYS

Writing to his mother, Mrs. John Riedel, 265 Wilson street, Arthur Riedel, Company 39, Great Lakes Naval Station, Great Lakes, Ill., says in part:

The first thing in the morning we roll out at 5 a. m. on the dot. If you don't get out you are thrown out which means a fall of five feet on a bare floor. Then comes the shower. Sometimes the water's warm, sometimes it isn't, but you take a shower all the same. Next you roll up your hammock and tie it just like a sausage is tied. Then one of my partners and I sweep and dry mop both rooms and others help to "tidy up" the place which is kept spotlessly clean. Breakfast comes at 7, and then we sweep up the crumbs. At 8 every man falls in for roll call followed by drill.

The Y. M. C. A. gave us checkboards and dominoes and I have got to be some "dom." player. At 11:30 mess is sounded. At 1 p. m. we drill again and after in fall out we have games again. At 4:30 mess is again sounded and we eat at 5. We unroll our hammocks, open all windows and air our bedding, consisting of two wool blankets and a mattress. The hammock is made of canvas and is six feet long. At seven we fall in and go to the canteen where we are allowed to buy candy, tobacco, etc. At 8 we make our hammocks up ready to climb in. At 8:45 the bugle blows and at 9 taps are sounded, the camp cannon is fired and I further noise is allowed. At 10 I got two more "shots" this morning and I get two coming, making a total of five and one vaccination. There are two shots in the right, two in the left forearm, one in the back and the "vax" on the left arm. The officers are good fellows and the grub is good. We sleep with all the windows open.

Editor of the Advocate:—While looking through the "dead" mail I found a letter which you sent to me and it was dated a month or more back, but the envelope had been torn open and the medal of which you speak was missing. Have been in Philadelphia six weeks. When we first came here we were to go right out on a transport bound for Liverpool, England, but the doctors found a fellow in our crew with the measles and they put us under quarantine and we have been under the same ever since, but it will be lifted about next Thursday. W. A. Mitchell received a copy of the Advocate and it sure did make us feel good to hear of the news in Newark. I expect to be home soon. There isn't much to write of so I will close, hoping to hear a reply soon.—I remain yours truly, Clarence L. Shrigley, Naval Training

THE "BLOOD AND IRON" POLICY

Is important in peace as well as in war. Every man and woman who would be a winner and not a slacker should have the strength of iron in the blood.

The new iron tonic, Peptiron, combines this valuable metal in medicinal form so that it is easily digested and readily assimilated. Peptiron also includes pepsin, aux., celery, gentian and other tonics,—sedatives for the nerves, digestives and carminatives—a health-giving medicine in convenient pill form.

Take it for anemia or thin blood, paleness, nerve debility, brain-fag. One or two Peptiron after each meal will quickly tell a story of marvelous results. Get it today.—Advertisement.

Today's Car of Utility and Economy

# Conserve Gasoline

## Drive a Detroit Electric

You are assured by the authorities that gasoline conservation is necessary to government purposes.

It has been intimated that, like other commodities, gasoline should be taken under the control of the government.

These facts need not worry you, however, so far as your motor car is concerned, because electricity offers a motor car power which experience has proven best meets the requirements of the motor car of today, and at low cost.

If it did not efficiently meet your requirements better than the gasoline car—then its general economy, a well established characteristic, would be of no avail.

But we have proven from actual mileage readings that the usual daily travel of the gasoline car is well within the radius of one battery charge of the modern Detroit Electric.

As to speed—the Detroit Electric will travel faster than the law allows on the roads you travel.

Just compare these features of usable utility with what you pay for in a gasoline car and which you practically never use—extravagant speed and long touring ability.

Then consider these points in favor of the Detroit Electric—ease of operation; instant availability. Winter and Summer, for the entire family's use; cleanliness; no engine troubles; no gears to shift; no lubricating system to watch; no cooling system to care for—in fact, the entire mechanism of the Detroit Electric Car will prove of less concern to you than merely one unit of a gasoline car—the electric starter.

These facts we will gladly prove by actual demonstrations.

Presiding during the evening was "Miss Liberty," and as she tolled the liberty bell the guests were invited to the dining-room. An American flag covered the table, in the center of which was a huge bell, mounted on a bank of red and white chrysanthemums. Large individual candles were used, while miniature flags afforded the place-cards.

As the guests were seated the liberty bell was rung and the bell was mechanically raised from the center of the table disclosing a miniature bride and groom, bearing a card on which was written "November." As the lights were extinguished a glowing illy was shown, with the illuminated photographs of Miss Dollie Warrington and Mr. Wilbur Brill.

Following the novel announcement congratulations were extended. Miss Warrington is the youngest daughter of Mr. G. A. Warrington, Woods avenue, while Mr. Brill is the only son of Mr. and Mrs. S. Brill, and is employed as paymaster of the Akron Coal company.

A GOOD WAR-TIME DISH.

Here is something that will be welcomed on the bill of fare by every member of the family. Empty the contents of a 5-cent package of macaroni into two quarts of boiling, salted water (may housewives add a little pepper); boil 12 to 15 minutes to suit taste, stirring occasionally with a fork to prevent sticking. Be sure the water is boiling rapidly and do not let it stop boiling. If necessary to add more water have it boiling. When done, put in a colander and drain.

Put in a baking dish a layer of macaroni, then a layer of grated cheese; add salt and pepper to suit taste, and a small quantity of butter; continue the layers until the material is used, making the last layer cheese. Then pour enough rich milk or cream to cover macaroni and bake from one-half to three-quarters of an hour.

## Both Fine Remedies

If you had one of those good old-fashioned mothers, there is no need to describe to you how Turpentine sterilizes a wound, and aids it to heal—how it works its way through the skin, routing out congestion and inflammation, relieving a cold, sore throat or pain. Turpentine was a fine old remedy, but here's one that's better yet—

## TURPO

an old-fashioned remedy in a new-fashioned form

Turpo does everything that Turpentine can do because it is made of Turpentine. It does more than Turpentine can do because it also contains Menthol and Camphor—three old-time remedies combined in a new, dainty ointment, golden-yellow in appearance, pleasing in smell. Turpo is the only Turpentine ointment the only remedy that can give you the benefits of these time-tested remedies.

You should have Turpo in your house to be ready for those little ailments and injuries which are sure to occur in every household—little troubles which are apt to become big if not properly treated as soon as they occur.

Turpo is a ready remedy for:

cuts, wounds, burns, scalds, rough skin, pimples, piles, cold sores, bruises, chapped skin, itchy skin, insect bites, tired feet, sore joints, lameness.

Use Turpo to relieve headache, earache, cold in the head or chest, catarrh, hay fever, sore throat, spasmodic croup, whooping cough, tonsillitis, bronchitis, neuritis, pleurisy, chilblains, lambs.

## WOMEN WITH FINE, DELICATE SKINS SHOULD AVOID THE DRY, COARSENING EFFECTS OF WINTER WINDS AND COLD

Buttermilk and Cream—Simple Remedies for Chapped Face, Hands and Arms—Inexpensive Condition—Soft, Smooth and Beautiful.

Few women realize that common buttermilk is nature's greatest skin beautifier, provided it can be used in conjunction with a good cream. The old-time application of buttermilk and cream to whiten and preserve the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe again using it to ensure a beautiful complexion and snow-white hands and arms.

Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a

perfect cream, which you can buy in small quantities ready to use, at any first class drug store by simply asking for "Howard's" Buttermilk Cream.

Before applying bathe the face and arms in warm water just hot enough for the skin to be pleasant to the skin. Dry and rub gently. When the skin looks pink and feels soft and warm, apply a liberal quantity of buttermilk cream, rubbing it into the pores for about 3 minutes. Continue the treatment every night and see how after a few treatments your complexion bleaches "fade away."

If some women would see these tolls for the skin's true light, they would not hesitate to cut this out, and give buttermilk cream a trial. There is no secret about it nor is there any doubt that it is a method of concentrating buttermilk and combining it with a

## GRANVILLE

Granville, O., Nov. 7.—One of the most delightful social happenings of the season was the tea, Wednesday afternoon, given by Mrs. George P. McKibben, a bride of last June, at her home, West Elm street, in compliment to Mrs. J. B. Gold of Pittsburgh, who is visiting her sister, Mrs. C. E. Stanton. At the exquisitely appointed table in the dining-room, Mrs. August Odebrecht poured, and Mrs. Theodore Johnson served the salad. The guests present were: Mrs. Gold, Mrs. Stanton, Mrs. W. A. Chamberlain, Mrs. Eschman, Mrs. C. L. Williams, Mrs. W. H. Johnson, Mrs. T. S. Johnson, Mrs. C. D. Coons, Mrs. T. A. Lewis, Mrs. H. D. Fish, Mrs. H. F. Darrow. The house was brightened by the artistic use of yellow and white chrysanthemums, and the program consisted of knitting for the Red Cross.

Mrs. B. I. Jones was hostess yesterday for the Winter Pencil club, of 24 members. The house was profusely decorated with chrysanthemums and bitter sweet vines, with their bright red berries. Tables were spread in the dining and living rooms for the serving of an abundant dinner at 5:30 o'clock, enjoyed by the 24 members and four out-of-town guests: Mrs. Grove B. Jones of Indiana; Mrs. James Thompson of Pittsburgh; Mrs. W. W. Geach of Columbus; and Miss Clara Wright of Philadelphia.

Mrs. W. P. Ullman and Mrs. T. S. Johnson have spent the day in Columbus.

Miss Esther Patton of the Newark road, is visiting relatives in Mansfield and Akron.

Remember the meeting of the W. C. T. U. Friday afternoon, at the home of Mrs. Jenkin Jones, Granger street.

The Women's Music club is preparing for an open meeting to be held next Wednesday afternoon at Bry Du, the home of Mr. and Mrs. J. S. Jones.

A GOOD WAR-TIME DISH.

Here is something that will be welcomed on the bill of fare by every member of the family. Empty the contents of a 5-cent package of macaroni into two quarts of boiling, salted water (may housewives add a little pepper); boil 12 to 15 minutes to suit taste, stirring occasionally with a fork to prevent sticking. Be sure the water is boiling rapidly and do not let it stop boiling. If necessary to add more water have it boiling. When done, put in a colander and drain.

Put in a baking dish a layer of macaroni, then a layer of grated cheese; add salt and pepper to suit taste, and a small quantity of butter; continue the layers until the material is used, making the last layer cheese. Then pour enough rich milk or cream to cover macaroni and bake from one-half to three-quarters of an hour.

## A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common hair cream from any drug store (this is all you need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

(ASSOCIATED PRESS TELEGRAM)

Peking, China, Nov. 7.—The American gunboat Palos, was fired upon today by Chinese bandits on the Yang Tse Kiang, near Chung King, in the province of Szechuan. The gunboat was damaged slightly.

The Palos, of 190 tons, is one of a number of small gunboats which have been in Chinese waters for some time. In June the Palos, Monacay, Samar, Quirios and Villalobos, were interned in the harbor of Shanghai by the Chinese government. They were released subsequently when China broke off diplomatic relations with Germany.

Chung King is about 800 miles up the Yang Tse Kiang from Shanghai.

**THIS MEAL PLEASES THE MEN.**

An economical dish that pleases the men folks can be made by emptying the contents of a 5-cent package of mararoni or spaghetti into two quarts of boiling salted water, (many housewives add a little pepper) boil 12 to 15 minutes to suit taste, stirring occasionally with a fork to prevent sticking. Be sure he water is boiling and do not let it stop boiling. If necessary to add more water, have it boiling. When done, put in a colander and drain.

Melt three level tablespoonsful of butter, cook in it three level tablespoonsful of flour, a scant half-teaspoonful of salt, and a dash of paprika. When frothy stir in one and one-fourth cups of milk and stir constantly until the sauce boils. Add the macaroni or spaghetti, half a cup of chopped ham, or cold boiled tongue cut in small cubes, a chilli pepper, chopped fine and a half cup of cheese. It is ready to serve as soon as the cheese is melted.

## Phosphorus Strengthens and Vitalizes Every Nerve and Organ of the Body

So says Doctor who prescribes ordinary phosphated malt for weak, nervous, rundown, anemic people.

Boston, Mass.—Without phosphorus, says Dr. Field, good health is impossible. Phosphorus strengthens and vitalizes every nerve and organ of the body. Without it even plants will not grow. More phosphorus is a common need of both men and women but few people realize it. Generally they believe that stomach trouble or liver or kidney trouble or iron deficiency or blood, is the cause, when all the matter of fact all they need is a little more phosphorus to tone up the nervous system and give strength and vigor to the body. When people come to me nervous, and rundown and irritable, and everything looks blue and it seems there is nothing but trouble, trouble, everywhere, I prescribe ordinary phosphated malt, which not only supplies the phosphorus but brings malt, one of the best known tonics and tissue builders, to the rescue of the wasting tissues. I have seen it double endurance and mental activity in less than ten days time and in cases where nothing else had proved to be of real value. I have seen it bring roses to the cheeks of pale, nervous, overworked women and a smile of happiness to the faces of children recovering from illness of long duration. Recently a patient came to me physically run down and on the verge of mental collapse. He found no pleasure in life, his daily work had become drudgery and he got no rest from his sports and holidays. He could neither sleep nor keep his mind on his work. His business was in such shape that he could not leave it and I doubt if it would have helped him, anyway, advised him to eat less and take two five-grain tablets of

phosphated malt after each meal. In less than ten days he walked into my office full of vim and vigor—his eyes bright, his step firm and buoyant and his manner that of a man of twenty-five though he was well past fifty. Physicians everywhere know the value of phosphorus and almost every woman knows the tonic value of malt. It is a remarkable tonic and tissue builder, especially adapted to the needs of nursing mothers and weak anemic women. Combined with phosphorus and malt, it is a powerful tonic and tissue builder, and it is adapted to the needs of the nervous system. The old liquid form of malt is not convenient to take and most of them contain alcohol which causes a needless stimulation followed by dangerous and depressing reaction. Phosphated malt retains the tissue building properties of malt and escapes the ill effects of alcohol. I have seen it produce such astonishing results that I prescribe it daily in my practice, recommending it to my friends and take it myself. After a few days of phosphated malt you will awake in the morning feeling refreshed and vigorous and rise ready to begin the day's work with redoubled confidence and energy.

Note: To find out what phosphated malt will do for you, get a package and try it for yourself. Or, ask the man who has used it, or get the formula from your druggist. It is printed plainly on every package, then ask your druggist, the manufacturers of phosphated malt have such confidence in it that they guarantee it. It will double the endurance of any weak, nervous, rundown man or woman day after day or the price will be refunded. If you are not satisfied, return the package subject to this guarantee. It is sold by druggists everywhere and especially by T. J. Evans.

### You Get Better Cough Syrup by Making it at Home

What's more, you save about \$2 by it. Really made and costs little.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save \$2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (60 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 65 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

### BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for laxatives, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. L. Edwards discovered the formula after fourteen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

### REGULAR BIGELOW WHIPPING IS GIVEN HOOSIER GERMAN

Union City, Ind., Nov. 8.—Fred Toepper was taken from his home here last night by a crowd of men, blindfolded, driven 12 miles into the country and severely beaten for alleged pro-German statements. He was not seriously injured and managed to free himself from a tree to which he was tied. At the beginning of the European war, it is said, Toepper sold 100 iron crosses at \$1 each for the benefit of German war funds.

### SEPARATE PARLIAMENTS FOR AUSTRIA AND HUNGARY

Amsterdam, Nov. 8.—The Vossische Zeitung of Berlin says that Budapest newspapers announce that the Austro-Hungarian Ausgleich will be renewed provisionally for two years. The Ausgleich is the compromise reached between the monarchies of Austria and Hungary in 1867 by which each possesses a separate parliament united under a common emperor. The agreement is renewable every ten years. In 1907 a new Ausgleich was perfected, taking the form of a treaty instead of a commercial and customs alliance. This expires during the present month.

## San Felice Cigar Now 6c

### Advance in Raw Material Costs Necessitates Small Increase in Price

The rising cost of raw materials, increased taxation and advanced wages during the past year have been so great that it has become impossible to continue to sell the San Felice cigar for 5c and still maintain its high quality. The time has come when we are compelled to raise the price of San Felice to 6c.

To those discriminating smokers who appreciate a cigar of merit we ask your continued patronage. It goes without saying that the usual high quality of the San Felice will be maintained. The San Felice cigar is now 6c. The Deisel-Wemmer Co., Lima, Ohio.

ITALIANS RETIRE  
IN GOOD ORDER TO  
NEWLY CHOSEN LINE

(ASSOCIATED PRESS TELEGRAM)  
New York, Nov. 8.—Across the Venetian plains the Italians continue to retire to a new defense line where a stand probably will be made to stop an Austro-German advance upon Venice. The morale of the Italian armies is improving and British and French troops are speeding to northern Italy to the aid of General Cadorna's harassed soldiers who have now given up more than 2,100 square miles of Italian territory.

The invaders, Berlin announces, have reached the Livenza river, between the Tagliamento and the Piave. General Cadorna has indicated that the Italians might stand on the Livenza line, but it is not improbable that the Piave will form the main part of the position from which the allied troops will make a supreme effort to check and drive back the Austro-Germans. Apparently the Teuton units reaching the Livenza were not in great force as Berlin makes no claim that the river has been crossed.

In retreating from the Tagliamento line the Italians were not as hurried in the retreat from the Isonzo and lost few prisoners and guns. The Italian rear guards gave the invading vanguards much trouble, apparently more so than in the retreat to the Tagliamento. Official statements and news dispatches throw little light on the progress of the Italian retreat from the Dolomite and Carnic Alps, nor is there any indication where this retirement will halt.

While the Tagliamento line became untenable through the drying up of the river, the streams behind General Cadorna are larger and less susceptible to sudden changes. The Italians also have the advantage of more railroad lines and less mileage from important ports and manufacturing centers. The Austro-Germans, on the other hand, are getting farther away from their bases and their lines of supply and communication must be built up on the ruins left behind by the Italians.

In the capture of the important position of Passchendaele, north-east of Ypres, on Tuesday the British took 400 prisoners. Crown Prince Rupprecht of Bavaria did not attempt counter attacks yesterday, giving the Canadians time to strengthen the new position, probably the most valuable yet taken in the Flanders advance. From Passchendaele the British guns can reach many important points and the British now threaten the whole German line from the coast to Lille.

The situation is tense in Petrograd, with the Bolshevik element threatening the security of the provisional government. The revolutionists have occupied several important governmental buildings. Latest reports indicate that there has been no serious rioting.

Loyal troops, including the Cossacks, have rallied to the support of Premier Kerensky, who has decreed that the workmen's and soldiers' military committee is an illegal organization but has declined to declare the Bolsheviks outlaws. The preliminary parliament has voted to work with the government, but has suspended its sittings, the Bolsheviks having seized the building in which it met.

German submarines last week had the poorest harvest in British shipping of any week since the intensified campaign began last February. Only 12 vessels, eight of more than 1,600 tons and four of the lesser category, were sunk by the Germans. The lowest previous week for vessels of the larger size was the week ending September 16, when eight were lost, but in that week the total in the smaller size reached 20. In total numbers lost the lowest previous week was ending September 30 when 13 went down. In the past four weeks 75 British merchantmen have been sunk by submarines or mines while in the last two weeks of April and the first two weeks of May, 175 were lost.

## PREPARING TEAMS FOR BIG "Y" DRIVE FOR \$35,000 FUND

The campaign to raise Licking county's \$30,000 share of the \$35,000,000 war work fund for the Y. M. C. A., is gathering headway every day and promises to be one of the most successful of the various efforts of a like nature that have been made in recent months.

The stress of campaign activities of various shades and dimensions having been received by the passing of election day all hands have applied themselves with a will to the one big task at hand and will be found all pulling together in the common cause from now on until Licking county "goes over the top."

Several machine-loads of boosters left early this morning for Camp Sherman to get in personal touch with the boys down there and get first-hand the soldiers' viewpoint of the Y. M. C. A. war work.

The watchword for today to the team captains is hustle in the completion of the task of pledging the team-workers so that full ranks may be reported on Friday evening when the final stock-taking for the big drive is had.

The response of all concerned from division chairman down to waterboy is unusually cheerful and enthusiastic, and if there should develop a slacker in all the group he is due to be both lonely and conspicuous.

### FRANK DUMM STARTS

#### NEW TAXICAB SERVICE

Frank Dumm, ex-county commissioner, has opened a new taxicab line at the rear of the Warden Hotel on East Main street. Mr. Dumm is well known throughout the county and the record of his ability and service should be sufficient proof of his capability of handling such a business and gaining the confidence of the public.

He recently purchased two new, closed and up to date cabs, which will be a credit to Newark's taxicab equipment, and he will be able to take care of theatre parties, weddings, funerals and out of town touring, as well as regular taxi service and light delivery. He expects his new cars to arrive within ten days.

Mr. Dumm's friends predict that the new venture will be a success. His policy, in pursuing his new venture "Honesty is the only policy," and with such determination certainly is deserving of support and consideration.

Mr. Chas. Niebel, who is affiliated with Mr. Dumm, is a well known citizen of Newark and holds the esteem of his friends and acquaintances.

## CATARRH DISTORTS FACIAL EXPRESSION

Spreads the Nose, Burns the Eyes, Puffs the Face, Drains the Lips, How to Get Rid of Catarrh.

TRY THIS HOME TREATMENT FREE.

Catarrh not only makes one feel miserable, it shows this effect in the features, and it usually grows worse. But thanks to a recent home treatment, there is recovery in store for every sufferer by the remarkable Gauss self-home treatment, which you can try free in your own home.

It is Perfectly Wonderful the Way Gauss Treatment Drives Away Catarrh.

A red nose that dribsbles with mucus is an unsightly misery. A breath tainted with the odor of catarrh is an offense against all health and decency. A stomach filled with droppings from diseased nasal cavities may cause untold misery, and ruins the complexion. The nose clogged with strings ofropy mucus indicates a body literally reeking with catarrh, causing pimples, blotches and other skin eruptions. The blood, swarming with millions of catarrh germs, entails upon the kidneys a labor that may break them down; the lungs and bronchial tubes, scourged with the destructive influence of systematic catarrh, can lead to anemia and the most serious consequences. So why continue with all this misery? Send your name and address today for a free trial of Mr. Gauss' famous treatment. Mail it to C. E. Gauss, 2585 Main St., Marshall, Mich. It will not cost you a penny to try it, and it surely will astonish you with its wonderful effect. Fill out coupon and mail it to day.

## AMUSEMENTS

### ALHAMBRA.

**Tonight.**  
"The Corner Grocer," with Lew Fields, the master of comedy and characterization, as the star and with charming little Madge Evans co-starred with him, will be the attraction at the Alhambra theatre tonight. It is a World-Picture Brady-Made and that, of course means that it is a fast moving, mighty interesting entertainment. The drama from which the film has been made was a huge success on the stage. It had a run of over 900 nights in New York City and was presented with great success in other cities.

### Friday and Saturday.

Miss Gail Kane, the clever actress who was formerly leading woman for Chauncey Olcott and who caught the all seeing eye of the late Charles Frohman when she was just beginning to fascinate Broadway, uses striking devices to maintain the atmosphere of plays in which she is appearing. She will be seen tomorrow and Saturday at the Alhambra. For instance, during rehearsals of "Southern Pride," a new American-Mutual production in which Miss Kane is starred, the atmosphere of her bungalow was Creole French, and a French cook was employed to serve everything à la Creole, with instruction's never to talk anything but French to the star. Similarly, during the production of one of her earlier plays in which the atmosphere was New England, Miss Kane reveled in rag carpets and talked Springfield, Mass., with a characteristic inflection. The young actress is positively a pre-Raphaelite for detail.

Billy West, Chaplin's only double in his greatest two reel comedy, "Back Stage," in connection with Gail Kane in "Southern Pride," at the Auditorium Friday only. He'll make you Happy and Healthy the King of Laughter and Thrills. A World-famous Comedian in remarkable Comedy. If you are sick, see Billy West. The Funniest Man on the Continent.

A Revel; a Riot. The Fun is Galvanic. High Voltage Humor; Electrifying Stunts. A Natural Comedian, with a Nation-wide following. Everybody Attention! Billy West is coming.

### AUDITORIUM.

"The Book Agent."

At last the lowly book agent has come into his own! Steeped in comedy and romance, he steps on the screen of the new-est William Fox photoplay, "The Book Agent," with all his suavity and assurance portrayed by no less a personage than George Walsh.

Mr. Walsh is Harry Kelly, itinerant purveyor of printed knowledge, who begins his sentimental adventures with an escapade in a young ladies' seminary, the main result of which is his meeting Mollie Lester (Loris Pawn). Later he meets Mollie again. She is nurse to Crandall Barker, a wealthy invalid. Mollie is in reality his granddaughter, though he does not know it; for he had disinherited her mother many years before, because of a distasteful marriage. This feature is seen at the Auditorium today together with the big two reel Pathe wonder picture "Under the Stars and Stripes in France." This picture taken under the supervision of the Government shows that landing of our American soldiers, until they are about ready to enter the trenches. It shows what our boys will have to undergo in learning the ways of foreign battle. You cannot afford to miss this feature. You all know George Walsh and are assured a great evening, if you visit the Auditorium.

### "The Lone Wolf."

In the presentation of a swiftly moving, tense story of mystery and adventure, the screen is supreme in the field of entertainment, and when such a story is the work of so brilliant an author as Louis Joseph Vance and the film version is prepared by such a master hand as Herbert Brenon, the result is certainly well worth watching for. Patrons of the Auditorium Theatre will have this happy combination set before

them on tomorrow and Saturday, when the big Selznick-Pictures production of "The Lone Wolf" will be the feature attraction.

The story centers about the deeds and adventures of a master criminal, known to the police as the Lone Wolf. This criminal becomes involved with a band of crooks known as the Pack, through his efforts to rescue from them a lovely girl who, he believes, is a crook herself. The Wolf and the girl pass through many exciting adventures.

This feature brought to Newark at a great expense, must be seen by all. "Under the Stars and Stripes" is held over for tomorrow. On Saturday "The Hearst-Pathe News" will be shown.

### Auditorium Notes.

George Walsh, who is seen at the Auditorium today, spends more than a dollar a day for meat for his 145-pound St. Bernard dog.

Dorus Pawn, the female star in "The Book Agent" seen at the Auditorium today, studied stenography and bookkeeping at a business college before entering pictures.

Because he has played so many western roles on both stage and screen, Dustin Farnum, star in "North of Fifty-Three," seen at the Auditorium Sunday, feels more at home in a wide-brimmed hat and cap than most men do in carpet slippers and smoking jackets.

Some bookings made by Mr. Fenberg yesterday for his theatre yesterday were, Joan, the Woman, "The Co-Respondent" with Elaine Hammerston, "The Man Without a Country," "You Pay" and "Sirens of the Sea." All big film features.

## DANDRUFF GOES! HAIR GETS THICK, WAVY, BEAUTIFUL

Save Your Hair! Double Its Beauty in a Few Moments, Try This!

Hair Stops coming out and Every Particle of Dandruff Disappears.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy; and have an appearance of abundance; and incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.—Adv't.

**CRISIS STILL ACUTE.**  
(ASSOCIATED PRESS TELEGRAM)  
London, Nov. 8.—The German political crisis is represented as being as acute as ever in special dispatches from Amsterdam. Some say that Count von Hertling's chancellorship is in danger of immediate shipwreck. The refusal of Herr Friedberg, leader of the national liberal party, to accept the vice presidency of the Prussian ministry and the alleged certainty that Dr. Heffrich is to be retained as vice chancellor are regarded as matters impossible of settlement. Count von Hertling is reported to have succumbed to military and junker influence.

The Berliner Tageblatt refers to the reactionary forces opposing the nomination of progressive leaders. The Kassische Zeitung blames the progressives and the socialists for the re-awakening of the crisis and says the prospect for a political truce has quite disappeared.

## THREE KILLED IN TROLLEY CRASH

(ASSOCIATED PRESS TELEGRAM)  
Akron, O., Nov. 8.—Three men were killed and three were seriously injured this morning when two Kent-Reverna cars collided head-on, near Kent. The dead are: George Bender, motorman; August Wilder, conductor; George O'Dell, died after arriving at Akron hospital. He was a passenger and suffered a broken neck. The injured are: Donald Sherwood, 27, Ravenna, broken leg; Max Elfant, broken back; Fred Ellison, 35, 349 Bryan street, Akron, cut about head.

A new motorman operating the eastbound tripper, waited for the westbound regular car. The collision followed. Neither motorman could see through the dense fog in time to stop the cars.

Twenty passengers were shaken up and badly bruised from the shock of the collision which demolished both cars. Fire broke out in one car immediately after the crash as the force of the collision scattered the fire in the stove in various directions, many of the coal dropping among the injured passengers thrown violently to the floor by the impact.

## MRS. E. H. WEISGERBER DIES AFTER ILLNESS OF SEVERAL MONTHS

Mrs. Emma Weisgerber of 185 West Main street, died yesterday afternoon after an illness with Bright's disease, the critical period coming Sunday night. She was the wife of Edward H. Weisgerber, a foreman for a number of years at the B. and O. shops in this city and a son of Edward L. Weisgerber, retired master mechanic of the B. & O. system.

Mrs. Weisgerber was a daughter of Mr. and Mrs. John Cosgrove and was born in Gratton, W. Va., her father also being connected with the mechanical department of the B. & O. She was married in this city thirty years ago to Edward H. Weisgerber and two children were born to them, Elizabeth, wife of Ross Davidson of North Fourth street, and Mary, who died when four years of age.

Early in life while yet a young girl, Mrs. Weisgerber was confirmed and accepted into membership of St. Francis de Sales church and has always remained a devout and attentive member of that congregation. Her illness dated back several months but gradually became more acute, her vitality slowly yielding, it becoming evident the last few days that death was soon to claim her. She was patient and gentle through it all and bore the pangs of her affliction with wonderful fortitude.

The end came Wednesday afternoon at 2:30 o'clock when surrounded by those she loved, the wife and mother, who only a short time ago was in the full flush of robust health and strength was called home to join her Maker, and her sufferings ceased, leaving a faint gleam of consolation to her loved ones that death brings peace.

Mrs. Weisgerber was a grand Christian woman, true to the principles which she believed and which she practiced in her every day life. She was charitable and kind, a pleasant, agreeable, neighbor and companion, and leaves a sweet memory which will be treasured by those who loved her. She is survived by her mother, husband, daughter, Mrs. Ross Davidson, three sisters, Mrs. Thomas Mason of Uniontown, Pa., Mrs. Margaret Bowman and Mrs. Matthew Kneupper, both of West Main street, and a brother, John Cosgrove, of North avenue.

Funeral services will be held from St. Francis de Sales church Saturday morning at 9 o'clock and interment will be made in Cedar Hill cemetery.

Are Told How to Find Relief from Pain.

Nashua, N. H.—"I am nineteen years old and every month for two years I had such pains that I would often faint and have to leave school. I had such pain I did not know what to do with myself and tried so many remedies that were of no use. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and decided to try it, and that is how I found relief from pain and feel so much better than I used to. When I hear of any girl suffering as I did I tell them how Lydia E. Pinkham's Vegetable Compound helped me."—DELINA MARTIN, 29 Bowers Street, Nashua, N. H.

## LT. COL. HANNAH WILL COMMAND SCHOOL FOR NEW OFFICERS

(ASSOCIATED PRESS TELEGRAM)  
Camp Sherman, Chillicothe, Ohio, Nov. 8.—Lieutenant Colonel James J. Hannah, of the 158th depot brigade will be named commanding officer of the officers training school, that will open at Camp Sherman January 5. The announcement was made today by Lieutenant Colonel Paul T. Haynes, Jr., chief of staff, who has received word from Washington that Lieutenant Colonel Hannah will be designated formally within a few days. As quickly as notified Lieutenant Colonel Hannah will start working out details for the coming of between 400 and 500 young Ohioans who seek to be officers in the national army. Recommendations of the men will be made Dec. 1.

It was announced from division headquarters today that minors will be admitted to the school. A youth otherwise qualified who is 20 years and nine months old will be eligible under the new provision. This will make it possible for a minor to get the course of instruction before he is 21 years of age, as the course lasts three months, until April 5.

Major Walter D. Pridgin has been detailed to Camp Sherman as division signal officer. It was announced today. He succeeds Major Olmstead, who was transferred to Washington recently.

The first big list of discharges for negroes who came to Camp Sherman in the last ten days was made public today. They were 52 found physically unfit. Also 53 whites will go home this week as physically disqualified for military work. The

that for Ohio, based on population, is \$225,000. In this work the Y. M. C. A. has agreed to co-operate, placing 150 young men in the field, in teams of 10. Fifty young women under like conditions will go to work to raise this sum, which is badly needed at once.

This fund will be expended for women and girls in communities adjoining United States training camps, where men are being mobilized for army and guard duty; where girls work in munition factories, etc. In foreign countries affected by war, and among American Red Cross nurses abroad. Checks may be made payable to Mrs. H. P. Davidson, and sent to field committee, 1211 First National bank building, Cincinnati, O.

Mrs. Burton Case of Granville, attended the conference.

## HOLLOWAY TO FRANCE FOR RELIGIOUS WORK WITH RED CROSS UNIT

F. E. Holloway, former pastor of the Plymouth Congregational church, but now located in Denver, Colo., will leave for France, sometime this month, under the direction of the Red Cross.

Mr. Holloway goes as chaplain of Hospital Base, No. 23, organized in Denver and 250 members compose the unit. There are seven from one of the Presbyterian churches, one of whom is a nurse, a sister-in-law to General Pershing.

Mr. Holloway's work will be principally among the wounded men. It will be his business also to see that the amusements are of the proper sort, and the reading matter will also be looked after and he will superintend religious services and Bible classes. Mr. Holloway leaves this week for California to bid farewell to his mother and sister. Mrs. Holloway will remain in Denver with her sister for the present.

## Y. W. C. A. CONFERENCE ON GIRLS' WORK IS HELD IN COLUMBUS, O.

To those who look upon the work of the Young Women's Christian Association, with indulgent concupency, content to allow the young women to work out their own salvation unaided, or carelessly to make over the conduct of the local association to a competent board of older women, the conferences of the war work council of the Y. W. C. A. held yesterday at the Dresher in Columbus, had many surprises and eye-openers.

Some of the best speakers from the national board were present and their talks aroused an earnest desire in the heart of every woman present to do her utmost, even to the last sacrifice, to advance the work set before the women of the United States.

"If 1,000,000 young men go to war," they ask, "who is to do the work at home?" Girls in wartime are the second line of defense, the women of the country must see to it that this line does not weaken and react disastrously upon our boys. The program included Dr. E. F. Tuttle of Columbus for the past three months chaplain at Camp Sherman, whose pleas is for an adjustment of conditions which will give to soldiers in camp a more normal social life. His statement was emphasized that the smallest unit which can, with safety, extend hospitality or social recognition to a soldier is the family.

Miss Mabel Cratty of New York, national secretary, spoke of the world program, and designated the national drive for \$4,000,000 soon to be launched, as a very small program, which soon would be completed.

Miss Marjorie Williams of Springfield, general secretary for Ohio, a former Shepley College girl; Miss Hull, Miss Sage and Miss Helen M. Taylor, chairmen for the Ohio and West Virginia field committees, all brought rousing messages, which stirred the hearts.

The apportionment for the Ohio-West Virginia field is \$336,000—

105 discharges were made out today.

French officers who have been working with the Ohio selective draft soldiers as instructors were highly complimentary of the progress the Americans are making. They say the interest of the men is unusual and they work more willingly than any troops they ever saw, that they keep busy and accomplish more and have the ear marks of making finer soldiers than they had expected to find.

"They told us in France that the Americans learn very quickly," said one of the officers. "We have it so. We saw American engineers in France building railroads. They work very fast and very quietly—they do not talk much," he said.

Following is the list of men who have been ordered discharged as physically unfit:
